

Datasheet

Product Description

Kamino DMX 512 Master is a unique DMX signal generator with a single universe, 2 outputs, and stylish design that works seamlessly with its own software, working in accordance with the relevant standards. It has facilitated your work beyond expectations thanks to its simple and easy to understand software so that users do not get lost in the complex program.

Features

- Up to 48 volts input and output voltage
- One Universe
- 2 full isolated DMX outputs
- Integrated ending resistors
- Connectable via USB
- DMX compatibility

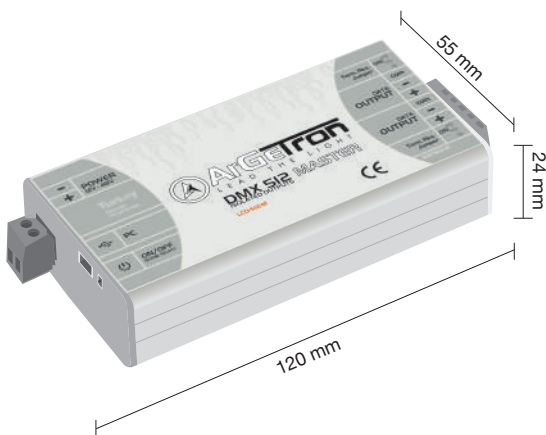

Benefits

- Aluminum, stylish solid outer body
- More than 15 years of field experience
- Offline working
- Less affected by electrical noise, stable operation
- Its own easy to understand software

Scope of Application

- Facade lighting
- Stage lighting
- RGB-RGBW led bar
- Wallwasher
- Indirect lighting
- Linear lighting

TECHNICAL DRAWING and SPECTIONS

Product ID	Kamino DMX512 Master
Power Supply	12-48 Vdc 2 Pin screwable Terminal plug
Power Consumption	< 1 Watt
Operating Temperature	-20...+50 C
Storage Temperature	-20...+70 C
Operating/Storage Hum.	0 ... 80% (Non-condensing)
Dimensions (WxHxD)	120 x 24 x 55 mm
Weight	112 gr
Case	Non-conductive, non-flammable
Protection Class	Ip20
Electrical Safety	Selv
Interfaces	<ul style="list-style-type: none"> • 1x3 pin screwable terminal plug for DMX512 output for Universe1 • 1x3 pin screwable terminal plug for DMX512 output for Universe1
User Interfaces	1 Pieces button
USB Port	USB 2.0, Type B
Certificate	CE
